PROFILE

I am a passionate and driven full stack developer with expertise in building robust and scalable applications. Proficient in various programming languages and technologies, with a focus on creating elegant solutions to complex problems. I am committed to continuous learning and staying updated with the latest trends in software development by taking courses in my free time.

EMPLOYMENT HISTORY

Software Engineer, Roke

Woking/London

Jul 2023 — Present

Using Python for backend development, data analysis, and automation tasks coupled with pytest to ensure the quality and reliability of applications.

Working with Amazon Web Services (AWS), including services like EC2, S3, Lambda, and RDS, to design, deploy, and manage scalable and resilient cloud-based solutions, ensuring high availability and performance of applications in various environments.

Full Stack Developer, Made By ON

London

Sep 2022 — Jun 2023

Working with React (nextJS, React Native) and Redux on state management in web applications, enhanced by providing type safety and improved code maintainability with Typescript and Cypress, Jest tests.

Working with Node and Rails on Front and Backend with RESTful API design and Swagger for documentation.
